

ENVIRONMENTAL EXPERTISE FROM THE GROUND UP

We are **GES**. We are scientists, engineers, and hands-on technical specialists. More important, we're innovators, problem solvers, and trusted partners to the organizations that count on us to tackle their most pressing environmental and infrastructure challenges.

Environmental solutions that span the entire **project lifecycle**.

- Environmental Due Diligence
- Site Investigation
- Remedial Design and Construction
- Technical Field Solutions
- Strategic Consulting
- Environmental Planning and Permitting
- Ecological Services
- Water Resources Management
- Data Management and Mapping
